DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 20-24 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

Claims 15, 18, and 19 are drawn to an apparatus having a gun, a nozzle, and a supply holder for a material and is classified in 239/302

Claims 20-24 are drawn to a method of adjusting, the method of adjusting including the determination of a physical property and is classified in class 73/1.16.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 20-24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's attorney, Daniel Radler on December 22, 2005.

The application has been amended as follows:

Cancel claims 20-24.

3. The following is an examiner's statement of reasons for allowance: A multicomponent nozzle engagable with a dispensing gun, the nozzle having at least two hollow extensions, such that at least one of the extensions provides a passageway which dispenses fluid without mixing the fluid, and means for adjusting the flow to alter a mix ratio of the fluid, in combination with a flexible hose in fluid communication with the at least one of the extensions is not known or rendered obvious by the prior art of record. Furthermore, while hoses attached to extension nozzles are known (as shown in U.S. Patent No. 5,992,690 to Tracy), there is no motivation to add the hose of Tracy to any of the prior art of record and any addition would destroy the function of the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seth Barney whose telephone number is (571)272-4896. The examiner can normally be reached on 7:30am-5:00pm (Mon-Fri), first friday off.
